

INDEPENDENT STUDY:

Bobbex Works Best at Repelling Deer!

The State of Connecticut Department of Forestry and Horticulture conducted a study to test the effectiveness of 10 commercially available repellents. The repellents were applied based on manufacturers' label recommendations for the 2006 and 2007 growing seasons. A *Protection Effectiveness Index* was derived at the end of the study based on plant size and dry needle weights of plants exposed to deer in the study.

RESULTS:

Bobbex Ranked #1 Repellent

Bobbex scored a 93—ranking higher than any other brand tested! *Only a physical fence worked better than Bobbex!*

PRODUCT	% PROTECTION INDEX
Physical Fence . . .	100
Bobbex	93
Hinder	83
Liquid Fence	78
Chew-Not	74
Big Game	72
Deer-Off	65
Plantskydd	60
Coyote urine	53
Deer Solution	52
Repellex	50
Control	49

All 48 ounce sizes feature a reusable pump sprayer!

Bobbex Inc: Committed to Providing the Best Repellent Solution on the Market!

Our company was started in 1989 to aid homeowners plagued by deer predation. We have been successful in this mission, and have grown to become a recognized leader in animal repellency throughout North America. Our updated branding and packaging reflects our commitment to continual improvement so that we always provide the very best products and service available.

Putting Our Customers First

Our years of dedicated repellent analysis and fine-tuning has resulted in our being able to offer our customers the best products available—and the best advice!

We welcome questions regarding deer or small herbivore problems that you, your neighbors, or friends may be experiencing. We promise no sales hype or pressure—just honest, helpful, friendly answers to your inquiries.

SATISFACTION GUARANTEE:

If not satisfied, Bobbex Inc. will refund suggested retail price or replace with item of equal value.

Proof of purchase required.

- **Fast and easy to apply** topical foliar sprays
- **Year-round protection** for ornamental plants, shrubs, flowers—can be used near food plants
- Classified as **"25(b) exempt"** repellents

#1 Rated Repellent!

DEER REPELLENT

- Protects ornamental plantings, shrubs, trees and seedlings from browsing and feeding by Deer, Moose, and Elk
- Available as both a Concentrate and Ready-to-Use spray

Fast, Convenient, Year-Round Application

Fast, easy application in almost any climate or temperature. Will not burn plants. When first applied, slight odor becomes undetectable to humans within 24 hours—but continues to repel deer for weeks!

Lasting Protection That's GOOD for Plants!

Bobbex introduces elements into the growing environment that benefit plant development. A special sticking agent helps plants retain moisture while also helping the product resist washing off during rain, snow, or watering.

BOBBEX-R™ ANIMAL REPELLENT

- Prevents Rabbits, Squirrels, Chipmunks, Groundhogs, Voles and Deer from devastating landscapes and gardens

Spray directly on low lying vegetation, flower beds, decorative gardens, and also at openings of burrows and tunnels to deter pest re-entry. Dipping bulbs in Bobbex-R prior to planting helps further prevent underground damage.

Bobbex-R as a Protective Bulb Dip:

1. Remove loose and dried plant tissue from around the bulbs.
2. Soak bulbs in undiluted Bobbex-R concentrate for 3 to 5 minutes, then remove to completely air dry before planting.

BOBBEX ROSE™ DEER & INSECT REPELLENT

- Stops deer feeding through smell and taste aversion
- Repels rose damaging insects including Japanese beetles, aphids, mites, leafhoppers, greenflies, and sawflies
- Reduces the severity of black spot and powdery mildew on roses and other flowers

Enjoy Prettier, Healthier Roses!

Reduces need for additional insecticides, pesticides, and fungicides for healthier growing conditions. Once dry, Bobbex Rose will not wash off in rain, hosing or irrigation. *A must have* for every rose lover!

BOBBEX-G™ GOOSE REPELLENT

- Discourages loitering by Geese and Waterfowl
- Deters nuisance and damage associated with feeding and defecating

An Eco-Friendly, Effective Solution!

Will not burn grass or turf—can be applied in almost any climate or temperature. Dries clear and endures through several heavy rains. Apply right after mowing during growth seasons. Lasts for up to 4 weeks during dormant season!
